DO NOT MAKE CHANGES OR ALTERATIONS TO ANY PARTS OF A FIREARM. USE ONLY REMINGTON PARTS. NEVER MAKE AN ADJUSTMENT TO THE TRIGGER, OR CHANGE THE SHAPE OR SIZE OF THE SEAR, SEAR NOTCH, OR OTHER PARTS.

Ten Commandments of Shooting Safety

1. Always keep the muzzle pointed in a safe direction.

2. Firearms should be unloaded when not in use.

3. Don't rely on your gun's "safety".

4. Be sure of your target and what is beyond it.

5. Use correct ammunition.

6. If your gun fails to fire when the trigger is pulled, handle with care!

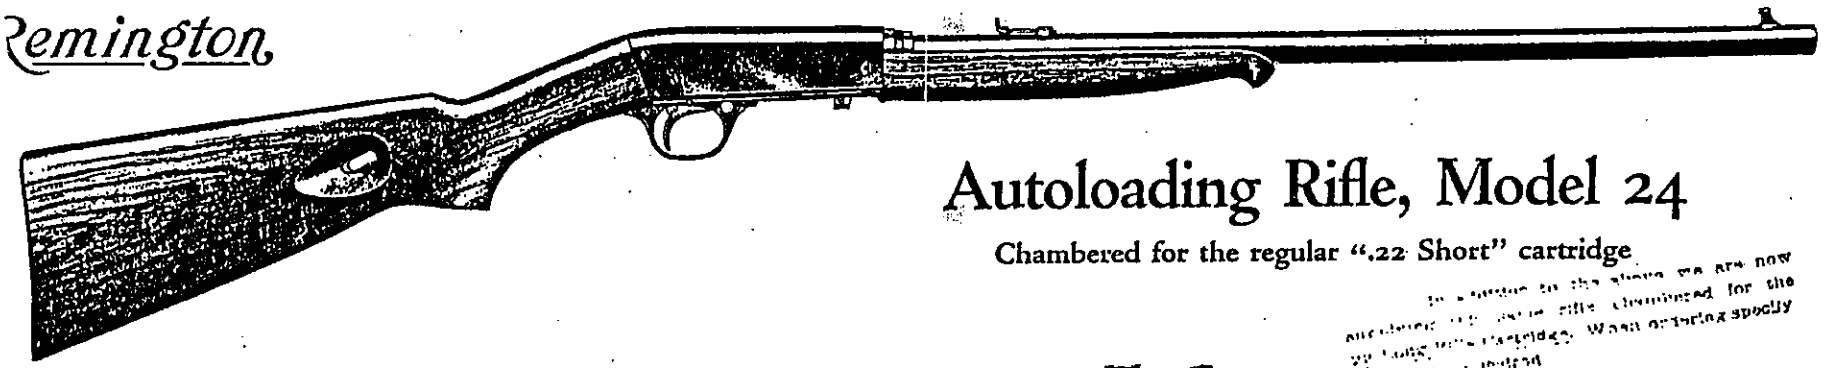
7. Always wear eye and ear protection when shooting.

8. Be sure the barrel is clear of obstructions before shooting.

9. Do not alter or modify your gun, and have guns serviced regularly.

10. Learn the mechanical and handling characteristics of the firearm you are using.

Remington



Autoloading Rifle, Model 24

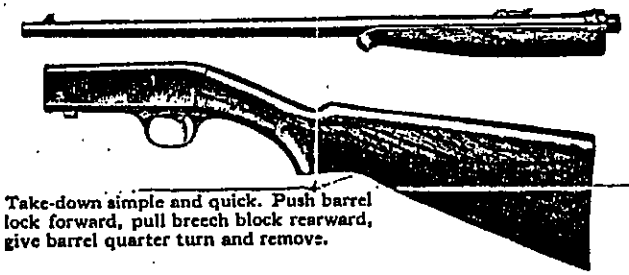
Chambered for the regular ".22 Short" cartridge

In addition to the above we are now [illegible] rifle chambered for the [illegible] cartridges. When ordering specify [illegible]

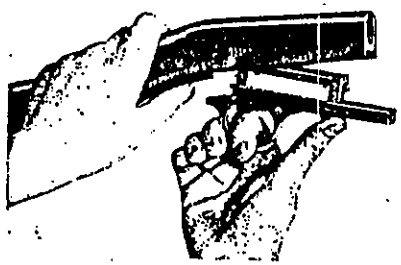
THE new Remington (.22 Short) Autoloading Rifle, Model 24, is the ideal arm for the rifle enthusiast, camper, noeist, motorist, trapper and shooting gal- :y proprietor. For a vacation trip it will ovide a great deal of pleasure and also rve as a practical arm for the securing of ıall game.

The Model 24 is the first Autoloading .fle to handle successfully the popular ındard ".22 Short" Smokeless Greased or :smok cartridge. This cartridge is so pop- ar that it may be obtained anywhere, even the crossroads store in the backwoods.

The autoloading feature, which is prompt .d dependable, makes possible rapid firing moving game or targets. It is only neces- ry to pull the trigger for each shot. The :oil ejects the fired shell, loads the rifle and makes it ready for the next shot. The magazine holds 15 cartridges which may be fire as fast as the operator desires.



Take-down simple and quick. Push barrel lock forward, pull breech block rearward, give barrel quarter turn and remove.



Action instantly removable for cleaning. Push trigger plate forward and withdraw with breech block.

The regular ".22 Short" Smokeless Greased or Lesmok cartridge.

Like other Remington firearms, the Mode 24 has the hammerless, solid breech construction that is so effective in keeping dirt, rai or twigs from entering the action. Ejectio from the underside of the receiver keeps th empty shells out of the line of sight and awa from the shooter's face.

The same strong, interrupted thread sys tem of take-down as used in Remingto Repeating Shotguns insures the rigid alig ment of barrel with receiver when assemble The barrel may be removed instantly witho the use of tools and permits the cleaning the barrel from the breech in the prop manner.

Submitting J. M. Browning's Latest Design of the Autoloading Rifle

MODEL 24 AUTOLOADING RIFLE

Solid Breech — Hammerless — Take-down

Made for Standard .22 Caliber Short Cartridge Only

Bottom Ejector

THE Model 24 Remington Hammerless Autoloading Rifle is the product of latest design, especially intended to meet the demand for an autoloading small caliber rifle, for shooting gallery and other short range purposes, which will successfully handle the standard .22 caliber short cartridge.

This model embodies all the popular features of the modern autoloading rifle and in addition can be very easily dismounted for thoroughly cleaning and oiling the barrel and action.

It is provided with convenient safety devices, and highly recommended for all who desire a reliable arm.

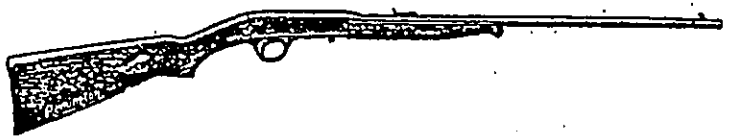
REMINGTON ARMS COMPANY, Inc.

25 Broadway, Cunard Building

NEW YORK CITY

Model 24 .22 Caliber Autoloading Rifles

Chambered for two Cartridges .22 Short or .22 Long Rifle Cartridge.
Not Interchangeable.



Solid Breech — Hammerless — Take-Down

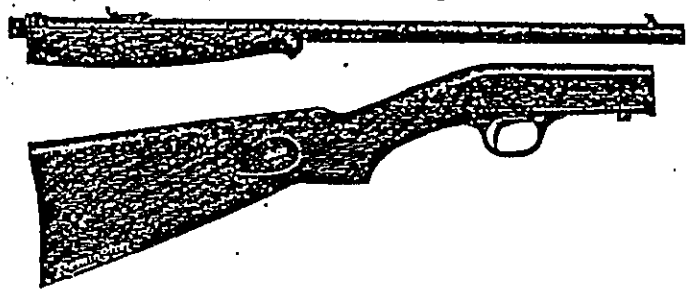
THE new Remington Model 24, is the first autoloading rifle to successfully handle .22 short Smokeless Greased or Lesmok cartridges. It is also made to take the .22 Long Rifle Smokeless or Lesmok Cartridges.

The Model 24 has the hammerless, solid breech construction, preventing dirt, rain or twigs from entering the action which construction gives the arm a very pleasing appearance. The cartridges may be fired as fast as desired, by pulling the trigger for each shot. The recoil ejects the fired shell, loads the rifle, making it ready for the next shot.

The safety is of the Cross-bolt type, conveniently located in front portion of trigger guard for operation with trigger finger.

The strong, interrupted thread system of take-down insures the rigid alignment of barrel with receiver when assembled. The barrel may be removed instantly without the use of tools, and permits the cleaning of the barrel from the breech in the proper manner. The action is simple and strong and easily taken apart for cleaning.

To put rifle together grasp receiver firmly in right hand, insert the barrel (with fore-end projecting to left) quarterwise into the receiver as far as possible, give barrel quarter turn to right until stopped. Push barrel lock, located in lower side of fore-end, into notch in receiver to prevent barrel from loosening.



To take down, push barrel lock forward, pull breech block partly rearward, give barrel quarter turn to left and withdraw. Barrel may now be cleaned from breech in proper manner.
